Mission. Northern Apex Corporation’s mission is to remain an innovative and focused industry leader - providing RFID integrated components and engineered solutions, with the goal of producing complete turnkey systems to a world class customer base.

RFID Inventory Tracking System - Northern Apex
Chipless RFID tags are RFID tags that do not require a microchip in the transponder. RFIDs offer longer range and ability to be automated, unlike barcodes that require a human operator for
interrogation. The main challenge to their adoption is the cost of RFIDs.

Radio Frequency Identification technology, or RFID, is being used in a number of settings from grocery stores and other retail outlets, to keeping track of pets and cattle, to license plates and passports. But the RFID systems are a clear threat to privacy, and recent history has shown that over-reliance on any kind of computer technology can be a disaster when the computers replace common sense.
