Definition "Poultry" is a term used for any kind of domesticated bird, captive-raised for its utility, and traditionally the word has been used to refer to wildfowl (Galliformes) and waterfowl (Anseriformes) but not to cagebirds such as songbirds and parrots. "Poultry" can be defined as domestic fowls, including chickens, turkeys, geese and ducks, raised for the production of meat or eggs and ...

Scavenging Chickens Training Handbook – Background Billions of village or backyard, mainly scavenging, chickens are found in almost all developing countries throughout the world. In many African countries, village chickens make up 70-80% of the national flock. Village chickens are extremely important, despite their poor production, in providing, albeit in small amounts, valuable high-quality ...

Poultry Club SA brings together like minded people that enjoy breeding of poultry in general.

Welcome | Poultry Club South Africa

(ANSER ANSER) Anser Anser is the common wild grey geese of Europe, also called the Greylag. The
Greylag is said to be the ancestor of all our domestic geese, and the common goose of Britain undoubtedly was the English Grey, although a white variety existed, and the Grey Back (Saddleback) may have come from an intercross.

Beak trimming is the removal of part of the top and bottom beak of a bird. It is also called “debeaking”, although this term is inaccurate as only part of the beak is removed. It is an animal husbandry practice commonly carried out in the poultry industry. Farm managers have their flocks beak-trimmed to blunt [...]
