ANTHROPOLOGY - University of Washington
Sociocultural evolution, sociocultural evolutionism or cultural evolution are theories of cultural and social evolution that describe how cultures and societies change over time. Whereas sociocultural development traces processes that tend to increase the complexity of a society or culture, sociocultural evolution also considers process that can lead to decreases in complexity (degeneration ...)

Sociocultural evolution - Wikipedia
Social anthropology is the dominant constituent of anthropology throughout the United Kingdom and Commonwealth and much of Europe (France in particular), where it is distinguished from cultural anthropology. In the United States, social anthropology is commonly subsumed within cultural anthropology (or under the relatively new designation of sociocultural anthropology).

Social anthropology - Wikipedia
Bachelor of Arts Degree in Anthropology. The Anthropology Department offers an undergraduate program that provides a framework for understanding human cultures and societies through culture, archaeology, adaptation and evolution.

FAU | Bachelor of Arts Program
Graduate Program in Anthropology. At the University of Georgia, themes of ecology and environment connect our cultural anthropologists, anthropological archaeologists, and biological anthropologists to one another and to scholars and practitioners beyond the department and the university. Our interdisciplinary and integrative connections give our work scholarly and practical relevance.

Textbooks. The entries in this section represent the upsurge in strong textbooks in the anthropology of religion since the early 1990s. Lessa and Vogt 1972, once the standard reader in the field, remains a valuable archive of classic articles. Lambek 2008 includes some of the same articles, as well as examples of more-recent scholarship. Hicks 2010 and Moro 2012 offer more-accessible ...

Religion - Anthropology - Oxford Bibliographies
Introduction. Gender is a key concept in the discipline of anthropology. Sex and gender are defined differently in anthropology, the former as grounded in perceived biological differences and the latter as the cultural constructions observed, performed, and understood in any given society, often based on those perceived biological differences.

Anthropology - The major branches of anthropology: Cultural anthropology is that major division of anthropology that explains culture in its many aspects. It is anchored in the collection, analysis, and explanation (or interpretation) of the primary data of extended ethnographic field research. This discipline, both in America and in Europe, has long cast a wide net and includes various ...

IB Psychology Notes - The sociocultural level of analysis ...
Unilinear cultural evolution was an important concept in the emerging field of anthropology during the 18th and 19th centuries but fell out of favour in the early 20th century. Scholars began to propagate theories of multilinear cultural evolution in the 1930s, and these neoevolutionist perspectives continue, in various forms, to frame much of the research undertaken in physical anthropology ...
