Open Innovation The New Imperative For Creating And Profiting From Technology Henry William Chesbrough

Open Innovation The New Imperative
Open Innovation. Innovation and entrepreneurship are at the heart of "creative destruction". In his book, Open Innovation, Henry Chesbrough describes a new paradigm of open innovation that is in contrast to the traditional closed model. To understand open innovation, it is worthwhile to review the older model of closed innovation.

Banks must think beyond compliance. Maximizing the benefits of open banking, both for consumers
and financial institutions, will depend on companies’ ability to use innovation to drive more value from the mandated changes that are on their way. For Australia’s big four banks — which dominate about 80% of the market — the challenge will be to embrace, rather than resist the impact of ...
